

Credenzas with Rack and Shelving

Prairie Style 2 Bay Rack Credenza

Credenzas are a great base for flat screen monitors and for equipment in rack and on shelves. Model MC credenzas have rear access panels and ventilation standard, they are designed for equipment. Model MCS shelf credenzas are designed for utility use, they are not ventilated, nor do they have rear access. Standard height is 30", depth is 24", but we adjust height and depth as required for your application. For most applications, the credenza is on appliance casters to allow rolling away from the wall. Pricing shown is for a basic Prairie Style credenza. Contact us for pricing on other styles.

This MC-48P cabinet is ready for commercial metal racks. Finish is Natural Maple, top is standard veneer self edge. Reference MFI #69202"

Prairie Style 3 Bay Shelf Credenza
