

## SCM Workstations

This SCM-240L is in Walnut melamine with a Black top and base and includes a vented rear access panel. Shown with an optional AC outlet..

This is a standard SCM-280 in Maple melamine with a Black top and base. Locking rear access doors are included.

SCM-280DC with an Oak top and base and Black melamine body. Includes an internal fan and plexiglass door upgrade.

**SCM Workstations** are compact and designed to hold a complete CPU based system and/or laptop. The overhanging top and base with T-molded edges protect the cabinets from bumps. All three models include a pullout keyboard shelf, heavy duty drop leaf, fixed rack rail and rear access. The SCM-240 is very compact. It includes a pocket door and has optional height adjust. In addition to the rack, the SCM-280 has room for a CPU, and standard locking doors. The SCM-280DC has a document camera drawer. Locking casters are standard on all models. There is no charge for machining the top surface or for changing a left/right orientation. Many finish combinations are available.
