**Options to Consider**

- **Rotating Top**  
  Courtrooms and city council chambers often request a lectern top that can rotate. Intervals of rotation can be made up to 180 degrees. A release pin and positive stop make the change easy and the stop prevents cables from twisting. Cables are routed through a large port in the center of the top into the base. The top can be either flat or slanted.

- **Rotating Base**  
  A rotating base allows any lectern style to turn 180 degrees. This base is used by courts, city counsels and law schools to allow a quick change of audience. The design allows the lectern to turn without damaging wiring. A simple release mechanism controls the movement. The turning mechanism is completely hidden.

- **ADA Accessibility**  
  The entire worksurface of any lectern or workstation can be made to pull out over the lap of a person in a wheelchair. An optional back wall rolls out with it and allows equipment to be mounted on the surface. Available with or without a rollout keyboard.

- **Height Adjust**  
  MLM-HDM Performance: 750 or 1200 lb. capacity; 5-1/2", 8" or 12" range. Operation is quiet, stable, smooth and fast. Unbalanced loads lift perfectly straight.  
  MLM-HDM Space efficiency: Our system leaves room for equipment. The lift takes up only 3° on each side and is hidden.
Quick Ship Lecterns  Orders ship in 10-30 days

MDCD-90G Classic Style Judge's Bench with Granite Tops in Custom Cherry A Classic Style Judge's Bench with a witness desk and an equipment cabinet. The reveals match the mill work in the room: a university moot court. The judge's center section is designed to use both a resident computer and a laptop. The equipment is racked to the judge's left and the witness desk is to the right. If desired, the entire assembly can be made height adjustable and be put on casters. Reference MFI#56252

MDP-205 Prairie Style Desk A 3-piece Prairie Style Judge bench in Classic Mahogany with center legs scalloped for knee space. Grommets were added to the surface to accommodate various AV equipment connection via cord pass. Concealed levelers allow the desk to sit on multiple surfaces. Reference MFI#15492

Options to Consider

Manual Adjustable Work Surface
This work surface can be manually adjusted to the angle that suits your needs. If the user prefers a flat or slanted surface, this option allows for varying degrees of perspective.

Electric Adjustable Work Surface
By electronically adjusting the work surface, a user can change the angle at the touch of a button. A whisper quiet lift enables the user to seamlessly switch perspectives without interruption.

Electric Monitor Rotator
We have created a mechanism that electrically rotates a monitor in a table or desk at the touch of a button. The movement is quiet, sturdy and reliable. Works with most monitors up to 24 inches diagonally.
MARSHALL FURNITURE, INC.

Courtroom Technology Furniture

About Us

30 Years of Architectural Design/Build Experience

Marshall Furniture has been building courtroom technology furniture for 30 years. Our foundation is rooted in the AV industry so we understand the relationship between technology and architecture. This experience with the AV industry also means that we can design your furniture around existing system requirements or put you in touch with an AV integrator for your next project.

Our Services

We Design As Well As Build Furniture

Customization is our specialty. If you don’t see what you want, we can design and build it for you. Send us sketches, drawings, photos or plans to get started.

Our free design drawings let you see and approve the exact furniture you want before you order. We’ll provide 2D and 3D line drawings to show your furniture with all equipment in place so there’s no question of fit and function. Contact us with your ideas or let us help you get started.

How to Order

Our Furniture Is Sold Exclusively Through AV Systems and Contract Furnishings Dealers Worldwide...

See our Dealer List for a list of dealers or let us know if there’s another AV company or furniture dealership you prefer. We’d be happy to work with any dealer you choose.
