

Custom Monitor Lift Cabinets

Our custom monitor lift cabinets provide a seamless integration solution for medium to large monitors. In addition to a monitor lift, cabinets can be specified with or without additional storage for equipment. All models come standard with surface grommet, locking access panel, floor hole for cable pass, ventilation as needed, swivel carpet casters or levelers, and an MFI supplied lift for monitors up to 65". Lifts can be specified for monitors over 65", call to discuss your needs. Choose from any of our 23 stock wood veneer finishes, any laminate, or custom match to room architecture.

PLC-70RP Custom Maple

Prairie Style Monitor Lift Cabinets

Retail Pricing starts at \$9,450

PLC-55LFE Custom Cherry
Sized for a 55" display, this cabinet came with the standard hinged lid. The locking rear access panel with ventilation is standard while the front locking doors and adjustable shelving are add-on options. This cabinet also features two side exhaust fans.
Reference MFI #40803™

PLC-65L Light Red Mahogany
Sized for a 65" display, this client preferred the top hat lid rather than the standard hinged. Also included is ventilation in the locking rear access panel with mouse holes for cable pass.
Reference MFI #93603™

PLC-50L Honey Cherry
Sized for a 50" display, this cabinet came with an optional top hat. The locking rear access panel allows for quick and easy lift service while the floor is equipped with ventilation and holes for cable pass.
