

Options

There are many ways to customize your piece. From cable pass and power to height adjustability and equipment storage, you can personalize your furniture a variety of ways to fit your specific needs.

Height Adjust

MLM-HDM4 4 Piston Lift
MLM-HDM6 6 Piston Lift
MLM-ATU Electric Lift
MLM-FIRG Electric Lift

Many of our custom products can be made with an adjustable height: Lecterns, Desks, Tables, or Workstations.

MLM-HDM Performance: 750 or 1200 lb capacity; 5½", 8", or 12" range. Operation is quiet, stable, smooth, and fast. Unbalanced loads lift perfectly straight.

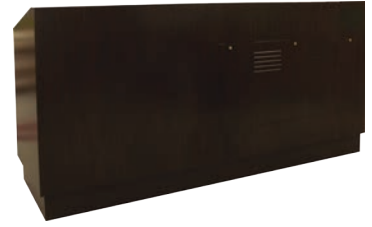

MLM-ATU Performance: 500 lb capacity; has an 8" or 12" range.

MLM-FIRG Performance: 168 lb capacity; has an 18" range.

Furniture Bases

Full to the Floor

Full-to-the-Floor Base

A full-to-the-floor base is standard on most lecterns and is never an extra charge.

Recessed

Recessed Base as option

A recessed base is available on most lectern styles that don't come with one standard. When ordered as an option, there is an extra charge.

Rotating

Rotating Base

A rotating base allows any lectern style to turn 180°. This base is used by courts, city counsels, and law schools to allow a quick change of audience. The design allows the lectern to turn without damaging wiring. A simple release mechanism controls the movement. The turning mechanism is completely hidden. Also see the Rotating Top on page 13.
