

Options

Work Surface Types

Flat Top

Flat Top
The flat top is a no-charge option. It includes a back wall for connection panels, control panels and AC outlets.

Slant Top

Slant Top
The slant top is a no-charge option. It makes papers easier to read and can be used to build in touch panels and connection panels.

Split Top

Split Top
Use the split top option to provide a reading and touch-screen area plus a flat surface for laptops. The size of the two areas is customizable. Monitor mounts for both areas are on page 15.

Wedge Top

Wedge Top
The wedge top option includes a partial back wall that helps maximize your flat workspace. A wedge can be made for your control panel, interface or monitor.

Roll Top

Roll Top
We can add a solid hardwood roll top to most lecterns and mixing consoles. Pricing depends on size and wood species.

Rotating Top

Rotating Top
Courtrooms and city council chambers often request a lectern top that can turn up to 180°. A release pin and positive stop make the change easy and the stop prevents cables from twisting. The top can be either flat or slanted.

ADA-Wheelchair Work Surfaces

The entire work surface of any lectern or workstation can be made to pull out over the lap of a person in a wheelchair. Equipment mounted in the back wall rolls out with it.

MRWS Rollout Work Surface

MRWS-K Rollout Work Surface with Keyboard

MRWS-LT Rollout Work Surface with Backwall

MRWS-K-LT Rollout Work Surface with Backwall and Keyboard

MRWS-K-LTM Rollout Work Surface with Backwall, Keyboard, and Recessed Open Monitor Mount

MRWS-SIDE Side Rollout Work Surface

Lectern Sides

Notched Side

NS-WS Notched Sides
Notched sides give easier access to drop leaves, side tables, and document camera drawers.

Curved Side

CS-WS Shaped Sides
The sides of lecterns above the work surface can be shaped into curves or arches. Most lectern styles can have shaped sides.

Flush Side

FS-WS Flush Sides
The sides of lecterns can be made flush to extend the work surface using an optional drop leaf shelf.

Laminate Work Surfaces

There is no charge to laminate any lectern, workstation, credenza, desk, or table work surface using our standard laminates. We recommend laminate surfaces for any application getting constant use and exposure to liquids (coffee, etc.). Other laminates are available, some at an extra charge, some at no charge. Our designers can help you choose. We offer any commercially available laminate by Wilsonart, Formica, Nevamar, or Pionite.

Wilsonart™ Black 1595-60	Wilsonart™ Bannister Oak 7806-60	Wilsonart™ Graphite Nebula 4623-60	Wilsonart™ Dove Grey D92-60
Pionite™ Hardrock Maple WM791 Suede	Formica™ Wild Cherry 5904-43	Wilsonart™ Grey Nebula 4622-60	Wilsonart™ Figured Mahogany 7040K-78

Brush Grommet

Brush Grommet
Brush grommets are a more versatile way to bring cables to the work surface, allowing components to be repositioned as desired.
