## Door Options

### Standard Locking Doors

**M-LDOOR** Standard Locking Doors  
Flat panel doors with or without quirk lines as you specify.

### Locking Pocket Doors

**M-POCKET** Locking Pocket Doors  
Pocket doors slide back into the cabinet so that equipment can be accessed during a presentation without having to open the doors. Pricing includes doors for each bay of the cabinet.

### Locking Vented Doors

**M-VLDOOR** Vented Locking Standard Doors  
**M-VPOCKET** Vented Locking Pocket Doors  
Wood frame doors with an aluminum vent panel improve airflow. Wood frame allows secure locking and fully adjustable hinges. Vent panels are clear anodized or powder coated black.

### Locking Glass/Plexiglass Doors

**M-PLDOOR** Plexiglass Locking Standard Doors  
**M-PPOCKET** Plexiglass Locking Pocket Doors  
**M-TLDOOR** Tempered Glass Locking Std Doors  
**M-TPOCKET** Tempered Glass Locking Pocket Doors  
Glass doors allow infrared controls to operate. The wood frame allows secure locking and adjustable hinges.

### Raised Panel Doors

**M-RPDOOR** Raised Panel Locking Standard Doors  
**M-RPPOCKET** Raised Panel Locking Pocket Doors  
You can add Raised Panel Doors to credenzas, desks, and lecterns that normally get flat panel doors.

## Knob & Pull Options

### Standard Knobs and Pulls

These are our standard knobs and pulls for doors, drawers, and pullout shelves. The wire pulls are 3" and available in brass or chrome finish. The knobs are 1 1/4" solid brass finished as polished brass, brushed chrome, or chrome. Choose from these 5 options at no charge.

*You may also specify or supply knobs, pulls, and other hardware for your furniture. It is possible that doing so will affect your cost and lead time. Please speak with our designers about your specific hardware needs.*

### Cooling Fans

**M-FAN-IN** Internal Fan  
**M-FAN-EX** External Fan with Grill  
To add extra ventilation to a cabinet, we recommend putting the fan inside the cabinet to pull air in and force air out the top vents. Inside placement also reduces fan noise. We can also put external fans wherever you would like them.

### Caster Options

#### Step Brake

**MSB** Step Brakes, Set of 2  
This option instantly immobilizes any piece of furniture on any floor surface by lifting the cabinet off of its casters. Step to set, step to release.

#### Caster Brake Access Toe-Kick

**CBAT** Caster Brake Toe-Kick Cutout  
Casters with brakes (usually used on hard surface floors) are a no-charge option. We can offer this modified toe at no cost to make it easy to set and release the brakes.
