

Custom Video Conference & Collaboration Tables

To accommodate the popularity of video meetings, we offer several custom tables that can seat any number of users and include surface cutouts for small equipment at no extra charge. For smaller set-ups, our simple huddle tables with laptop connectivity are perfect for a quick get-together. All models come standard with surface grommets, floor hole for cable pass, box, panel or barrel legs, and levelers. Choose from our 23 stock wood veneers and finishes, any laminate, or our custom matching services to complete your collaboration set-up.

V- Shaped Tables

Retail Pricing starts at \$7,200

VST 65x96x324 Classic Walnut

This V-Shaped video conference table features a horizontal grain pattern top with the standard self edge, five surface cutouts for Crestron FT-600, and five microphone hole cutouts. The tapered box legs each include a locking access panel for service with troughs running between for cable management.

Reference MFI #99313™

VST 40 x60 x90 Classic Walnut & White Laminate

This collaborative classroom table was made pub height for stool seating. AMX cutouts were specified in the Walnut top panel, designed to be removable for future technology changes. The dual-arm was optional. The credenza below matches the top shape and includes locking panels on both sides for cable access and storage.

VST 40 x60 x240 Classic Walnut & Natural Maple

A solid wood Bullnose edge was made in Classic Walnut finish. The top was machined for nine Extron HSA 402 cutouts and nine Clock Audio C012E-RF microphones. For storage and cable access, each base was made with a locking service panel and included floor holes for cable pass and leveling feet. A custom logo inlay was added to the surface to complete the look.
